welcome

My name is Laura, the “L” in [elle] mower. I love to capture and tell your story with images.

I believe investing in physical image keepsakes (such as wall art, prints and albums) is an important part of the [elle] mower experience. I work with only the best professional art companies around the world to produce your keepsakes.

I recognize we often have thousands of digital images in our phones (or the cloud). The desire for something more has brought you here.

I am not the right photographer for everyone, and I am okay with that. If I am the right fit for you, you are in for a photography experience unlike any you’ve had before.

We will work together to capture images that capture your life and tell the story to future generations.

Are you ready to start?

Laura
